Doylestown Art League Annual Exhibition *2001*

Alan Fetterman is a highly noted artist on the forefront of the art scene in Bucks County today. His work is highly sought and collected as he is recognized as one of major forces continuing the Bucks County art legacy. Born and raised in Pennsylvania and growing up in Bucks County in the 60's and 70's gave Alan his endearing connection and affinity for the bucolic and cultural surroundings that Bucks County has long been noted for. After graduating from Central Bucks East High School in 1976, he began his lifelong interests in the humanities.

He has traveled extensively in and out of Europe 20 to 30 times, living and learning the cultural values and aesthetics such travel would allow. Always returning home to his roots in Bucks County and living in many old homes and farms between Doylestown and the Delaware River, he began writing poetry and music and though Alan began drawing as a child, he did not begin to paint until he was the age of 35.

Though he did not school in the fine arts nor study under another artist, his innate approach to creating art is well founded with a volume of lifetime observations and self-studies in the arts and humanities. With a degree in American Studies from Bucks County Community College and as a Kay Scholar from the University of Pennsylvania in Philosophy, Alan transfers knowledge into art and aspires to the aesthetic concept of "The Art Spirit."
